Experience

Android Developer Intern SEP 2024 – CURRENT
Royals Webtech , Nagpur

- Currently working on Railway Vender Management App project,Where i am implementing a user authentication system where only verified users can log in. After successful authentication, users can access a scanner feature to scan QR codes, allowing them to retrieve and display specific vendor details based on the scanned data.

Java Developer Intern MAR 2024 – APR 2024
Learntricks Edutech , Pune *GitHub link*

- Developed a note-taking website using Servlet, JSP, JDBC, HTML, CSS, Bootstrap, and JavaScript. The website allows users to create, edit, and delete notes, with features including user authentication, session management, and responsive design.

Projects

Online Bookstore Website FEB 2024 – MAR 2024
GitHub link

- I developed an online bookstore website project using Java technology, featuring dual login functionalities for administrators and customers.
- As an administrator, I implemented features allowing for the editing, viewing, and modification of book details within the system.
- As a customer, I implemented features allowing for the viewing and buying of books within the system.
- Technology Used: Java, J2EE (JDBC, Servlet, JSP), HTML, CSS, Javascript, Oracle & tomcat.

MyPortfolio Website JAN 2024 – FEB 2024
GitHub link

- Created a responsive portfolio website to showcase my skills, projects, and experience.
- Implemented smooth navigation and interactive features to enhance user experience.
- Technology Used: HTML5, CSS3, JavaScript.

Technical Skills

Languages: C, Java
Frontend: HTML5, CSS3, Javascript
Technologies: Jdbc, Servlet, Jsp
Web Server: Apache Tomcat
Developer Tools: Eclipse, Android Studio, Maven, VScode, Git, Github
Database: Oracle
